PERSONAL SUMMARY

A multi-skilled project manager with over 27 years of experience in IT. Highly developed supervisory, management and technical skills. Very capable with a proven ability to ensure the effective execution of IT projects and programmes within budget, to provide IT services and systems that can reduce an organisation's overall cost base, increase market share and overall performance.

Extensive practical knowledge of complex IT and eCommerce systems, programme & project management, human capital management, business analysis, quality assurance, and support.

Experience and exposure to a range of financial instruments and life-cycles including listed futures and futures options, listed equities, foreign exchange.

Looking for a new and challenging position that will make best use of my existing skills & experience, and also further my professional development.
